

Agenda

1. Introductions, FG history

2. Terminology, current trends

3. Inductive-Deductive group work

What is autonomy and how can it be observed?

Testing assumptions about autonomy against recent relevant literature

- Participants divided into groups to answer/define/discuss the descriptive questions related to (learner) autonomy (What, Where, etc. . . .)
- Learner autonomy cartography project presentation (online, past/ongoing work)
- Participants compare answers/criteria against cartography project, discuss affirmation, disagreement, overlap, and gaps

4. FG Autonomy output:

“Contesting Autonomy: Mapping Practice, Challenging Assumptions” (working title)

Research brief or FG policy paper?

Co-authored by co-coordinators (and members present during FG meeting???)

Deadline (ex. submit to conference proceedings?)

Possibilities of conference and other partnerships

5. Other/Announcements

6. Next meeting: (Dependent upon frequency determination) October or December 2026
(online? hybrid?)
